

NAME: Andrew Jones  
ROLE: High Achiever Student  
AGE: 18  
GENDER: Male  
MAJOR: Economics  
HOMETOWN: Sunnywale, California

## PERSONALITY

## MOTIVATIONS

Andrew is a high-achiever student, gets good grades and is also involved in various extra-curricular activities. He is an ambitious individual looking for a high-quality degree in Economics that will put him in a fast-tracked career.

## GOALS

- I took this subject because it's mandatory for my major.
- I need an app that is fast, simple and easy to use.
- I need the ability to skip classes for the topics that I already know.
- The learning curve should be interesting to me, should be worth the investment and time

## FRUSTRATIONS

- I find the subject boring as I have already done many of these topics in high school.
- I sometimes forget to save my assignments and then lose my work.
- MyCourses is not adaptive; I can't choose the difficulty level.
